Spector, W.B. Langdon, U. Genetic Algorithms (GAs) are one of several techniques in the family of Evolutionary Algorithms - algorithms that search for solutions to optimization problems by "evolving" better and better solutions. Title Genetic Algorithms in Applications Author(s) Rustem Popa Publisher: IN-TECH (March, 2012) License(s): Attribution 3.0 Unported (CC BY 3.0) Hardcover 328 pages eBook PDF Files, and an zipped PDF, 5.85 MB Language: English ISBN-10: N/A ISBN-13: 978-953-51-0400-1 Share This:Å ÅÅ Å Book Description This well-organized book takes the reader through the new and rapidly expanding field of Genetic Algorithms step by step, from a discussion of numerical optimization, to a survey of current extensions to genetic algorithms and applications. Genetic Algorithms and Evolutionary Computation Author: Adam Marczyk Publisher: The TalkOrigins Archive, 2004 Creationists argue that evolutionary processes cannot create new information or that evolution has no practical benefits. This book disproves those claims by describing the explosive growth and widespread applications of genetic algorithms. A Field Guide to Genetic Programming Author: R. It focuses on evolutionary algorithms, genetic algorithms, genetic programming, learning classifier systems, evolution strategy, etc. 7. 3. GP has generated lots of results and applications. The writer is a senior correspondent at EFY, Gurgaon Loading PreviewSorry, preview is currently unavailable. 5. Poli, W. These applications may be useful to many other people who are getting familiar with the subject of Genetic Algorithms. This volume highlights the recent technical advances in this increasingly popular field. You can download the paper by clicking the button above. Genetic Programming: New Approaches and Successful Applications Author: Sebastian Ventura (ed.) Publisher: InTech, 2012 program (GP) There is a branch of evolutionary computing that aims at the automatic discovery of programs to solve a given problem. The book features recent improvements, ideas and concepts in a part of a huge EA field.
